PROJECTS

Library & Digital Resource Management System | React, Vite, Tailwind CSS, Supabase (PostgreSQL, Auth, Storage) | [GitHub] | [https://library-management-liart-three.vercel.app/]

- Built a full-stack library portal with student and admin roles for book search, borrow requests, approvals, returns, and resource uploads.
- Secured data with Row-Level Security and protected routes, and implemented atomic borrow/return logic in Postgres to keep inventory consistent.

Student Feedback Intelligence System | Python, NLTK, scikit-learn, Streamlit | [GitHub]

- Built a system that analyzes student feedback automatically. It preprocesses the text, converts it to TF-IDF features, and uses two Logistic Regression models to predict the category and sentiment.
- Added rule-based issue detection and a Streamlit dashboard with filtering and CSV export.

AI Academic Research Agent | Python, FastAPI, React, ChromaDB, Gemini | [GitHub]

- Built a RAG-based research assistant using OpenAlex, ChromaDB, sentence-transformer embeddings, and Gemini to generate evidence-based answers from academic papers.
- Developed a modular FastAPI backend with a React frontend.

ACTIVITY:

Volunteer Member | Mudita - Social Responsibility Cell | Feb 2025 – Present. Organized and participated in community outreach programs, including regular visits to old-age homes and orphanages.
